

1. (twice amended) A display unit,  
suitable for a vehicle, comprising:

C1

a dial plate and a display located in a  
region of the dial plate, the display having a front surface,  
wherein

the front surface of the display, which  
faces an observer, is arranged in the same plane as a front  
surface of the front of the dial [plate] plate, which faces the  
observer.

3. (three times amended) The display  
C2 unit as claimed in claim 1, further comprising a film applied to  
the front of the dial plate; and

wherein the display comprises a liquid  
crystal screen with a [pole] polarizing filter, the [pole]  
polarizing filter being in a front panel of the display and  
arranged in the same plane as the film at the front of the dial  
plate.

4. (three times amended) The display  
unit as claimed in claim 3, wherein the film covers the dial  
plate and the display, comprises a scale in the region of the  
display, and serves as the polarizing filter.
